

CHINA DOLL

Water:

Allow soil to dry out just below the surface in between thorough soakings. Reduce water in winter. Fertilize monthly, March through October, with an all purpose fertilizer. One of the few houseplants that will tolerate dry air.

Light:

Bright indirect light is best. Keep out of direct sun during spring and summer. A few hours of direct sun in winter is beneficial.

Repotting:

Repot every two years in spring.

If you don't see it, please ask ~ We special order.
