

# HOLIDAY CACTUS

## *Flowering Period:*

Generally available October through December. Will bloom for about four to eight weeks. To rebloom: place the plant in continuous, uninterrupted darkness for fourteen hours daily during October and November. Bring cactus into a bright area where it will continue to develop and flower.

## *Light:*

Indirect or bright diffused light is ideal. Shade from direct sun.

## *Water:*

Moderately moist soil is preferred. Water thoroughly when soil is dry to the touch. Do not allow to stand in water. Improper watering will cause bud drop.

***If you don't see it, please ask ~ We special order.***
