

POINSETTIA

Water:

Moderately moist soil is preferred. Water thoroughly when soil surface feels dry to touch. Drain excess water to prevent root rot.

Light:

Moderately bright light is best, but will tolerate low light. Bright light will help delay flower bud drop and will maintain brightly colored bracts.

Temperature:

65 to 70°F daytime and 60 to 65°F at night. Avoid excessively hot or cold areas.

If you don't see it, please ask ~ We special order.
